- ANC for all pregnancy: 1st visit? Did she go till the end? Frequency of the visits?

1st trimester: (0-12)

- N/V, frequency:
- Appetite, constipation:
- UTI and urine:
- Vaginal discharge, blood, mucus pus?
- Drug, X-ray:
- Hospital Admissions:

2nd trimester: (13-26) (quickening in primi 18-20wks, multi 16-18wks)

- Quickening:
- Wt gain, Appetite, V, constipation, polyuria:
- Edema, tachycardia:
- Headache:
- Vaccination, US, DM, HT, UTI:

3rd trimester: (27-40)

- Fetal movement:
- Edema:
- Dyspnea, chest pain, palpitation:
- Anemia:
- Any problem:

Review of system:

- Respiratory system: (cough, sputum, chest pain, palpitation, dyspnea)
- Cardiovascular system: (chest pain, dyspnea, palpitation edema)
- GIT system: (abdominal pain, diarrhea, constipation, heart burn)
- Skeltomuscular system: joint pain , bone pain
- Renal system: (colour odur frequency dysuria)
- Nervous system: (headache paresthia numbness faint)

Past Obstetric History: (Pregnancy in chronological order: G P A)

- **Alive:** Year? Gender? GA? Place? Mode? Normal or medication induced? Bleeding? Pyrexia? Episiotomy? Reason if CS? Crying? Breastfeeding? Weight? Condition? Resuscitation? ANC? Any complication (DM, HT, PPH in puerperium)? (normal weight : 2.5-3.8 Kg)
- **Dead:** Same as above + cause?

Gynecological history:

- Menarche:
- Cycle (Regularity? Interval? Duration of bleeding? Amount: (no of pads)? Dysmenorrhea? Dyspareunia?
- Date of marriage + Date of 1st pregnancy → to know if there is hx of infertility
- Pap smear (مسحة):
- Contraception: For how long? What type?

Past Medical: HT DM Asthma UTI epilepsy, admission for any certain condition?

Past Surgical:

Drug and Allergy + Transfusion:

Family: Congenital malformation? Twins? HT/DM? Asthma? Heart disease? Bleeding disorder? Thalassemia? PET?

Social History: Smoker? Husband smoker? Socioeconomic status? Alcohol? Animals or pets?
